

L'ORÉAL INDIA

21st November 2017.

To whomsoever it may concern

It gives me great pleasure to share this testimonial for Rohit Shinkre Architects.

They were appointed for comprehensive design and project management services for the interior fit out for the L'Oréal Technical Centre and Sales office (2006), followed gradual refurbishment of our corporate office (2007) at the ground floor (6000 s.ft) and 2nd floor (16000 s.ft) respectively at the Peninsula Towers, Lower Parel, Mumbai. The works included architectural design civil, interior, air conditioning, electrical and allied services.

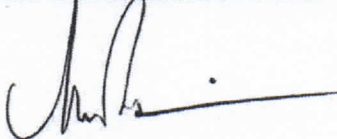

We found that their understanding and designs responded was well within the specific requirements of our various departments. The rigour of the design and contract documents and the deep understanding of all aspects of the project from design studies to handover ensured that the projects were delivered to our entire satisfaction and within the allotted time and cost. It was a pleasure working with them.

I have no hesitation in engaging their services again and recommending them to anyone else needing similar professional services.

We wish all the very best to Rohit Shinkre and his team in their future endeavour.

With Best Rgds.

For L'Oréal India Pvt. Ltd.
