

COMPLETION CERTIFICATE

The French International School in Pondicherry has been working in collaboration with Rohit Shinkre Architects since 2016. Our school is a two hundred year old establishment and a typical colonial architecture of Pondicherry.

Mr Shinkre's firm was responsible for building a modern construction on the historic site, entirely respecting the harmony of the whole structure. He has done his job well. The new, resolutely modern building blends in perfectly with the old one.

Mr. Shinkre has perfectly respected complex specifications. The new spaces are very functional and meet precisely our needs.

In addition to the construction, the architect's firm had to renovate part of the existing building, again respecting precise and binding specifications. The completed work was very satisfying for our establishment.

Pondicherry, December 6th, 2019

Stéphan MADRIAS
Principal,
French International School, Pondichery
